Giving Tuesday is a global generosity movement unleashing the power of people and organizations to transform their communities and the world. This year, Mercy College of Ohio is raising funds for the Student Emergency Fund, a fund that assists students with unforeseen financial emergencies which would prevent them from continuing their education at Mercy College. The fund is sustained by contributions from faculty, staff, students, alumni, and friends of the College. The number of students who can be served by the Student Emergency Fund is determined by the availability of funds.

## SAFETY UPDATE FROM CAMPUS

Safety and the health and well-being of everyone is first and foremost our top priority. Communication to Mercy College students, faculty, and staff are provided in weekly newsletters, president updates, Canvas, social media, and our website at: [www.mercycollege.edu/covid19](http://www.mercycollege.edu/covid19).

Throughout the Fall semester, with labs taking place on campus, there has been a temperature station for faculty/staff/students entering campus. Temperature check is with a non-contact thermometer. Temperatures must be less than 100 degrees (F) in order to enter the building. Mercy College is encouraging good hand hygiene and/or hand sanitizer. Hand sanitizer stations are on walls and were placed in classrooms and labs. Cleaning supplies have been continuously provided in all rooms and faculty/staff/students are encouraged to clean their work station/study area before and after finishing work. Color-coded circles were placed on the floors, with each program/certificate following the designated path of their assigned color.

Student services are continuing in the online/remote environment except urgent needs where an appointment is scheduled. The Mercy College Food Pantry is continuing to serve students, providing food items and/or gift cards via scheduled appointments.

On October 29, the Halloween Howl tradition at Mercy College (Toledo campus) continued with a different look than in past years. Visitors engaged in a drive-through, contactless experience that included treats for children in the vehicles. Check out these photos from the event!
